

## Client Testimonials

### When Employers Invest In Their Workplace, They:

- Keep employees engaged and productive, mentally and physically.
- Provide a safe and supportive workplace environment and culture.
- Provide opportunities for injured employees to return to work quickly.
- Reduce future labor expenses and minimize to cost of replacement workers or overtime.
- Improve employee retention rates and loyalty.

*"Your company provides us with an effective injury management system and controls, which has produced significant reductions in our injuries and costs. Your program has been extremely valuable because of the accountability it creates between the employees, supervisors and management. Proof:Positive has become part of the team and part of our success."*

*- Dave Gigli, Senior DC Manager,  
Kroger Food Stores, 2008*

*"We began our relationship with Proof Positive in 2004 due to high injury rates and the highest Workers' Compensation costs in the company. Over the past 7 years, our Workers' Compensation costs have been reduced by over 90%. We have continued to incorporate them into our Health and Safety efforts as an integral part of our overall program. I would strongly recommend this program."*

*- Mitch Brehm, Plant Manager,  
Pactiv Corporation, September 2013*

Budgets by 30-70%!**

## *Stop Workman's Comp Claims from draining the life out of your business!*

### GET YOUR EMPLOYEES OFF THE BENCH AND BACK IN THE GAME

Our objective is to make worksites **safer, more efficient, and more profitable**. We provide comprehensive safety programs that **cut operational costs** by preventing **workplace injuries** and allowing an immediate **return to work** for employees who would normally be placed on temporary disability.

#### **Services Offered:**

- Innovative return to work programs
- On-site medical triage/first aid to help prevent unneeded recordable injuries
- On-site drug & alcohol testing, DOT/post-accident/new hires
- On-site first aid/CPR/AED certification training
- Equipment training and certification: forklift, pallet jacks, etc.
- Employment screening on-site: agility, fitness and job simulation testing for new hires
- Safety audits and assessments
- Ergonomic assessments & solutions: Physical Demand Analysis
- Injury & illness prevention programs
- Claims management
- On-site health & wellness rooms and much more...

***We tailor programs to fit your company's needs!***

#### **Our Professionally-Managed Health & Wellness Rooms provide:**

- A safe environment in which an injured employee can begin returning to full activity.
- The structured classroom eliminates "time off" and is a deterrent for fraudulent or malingering claims.
- Meaningful activities and education about safe work practices keeps the employee productive as well as proactive on safety regulations in their workplace.
- The Health and Wellness Manager coordinates with claims adjusters and medical providers to ensure treatment is progressing on schedule with minimal delay.
- Supervised by our healthcare professional, programs are customized to accommodate for almost any type of injury keeping the employee working and on the payroll.
- Attendance in the Health & Wellness Room is mandatory per the employer's guidelines, which provides accountability and quality control.

#### **Did You Know?**

- Reducing workplace injuries can increase your profits by 30%
- Injured employees out of work longer than 6 months have only a 50% chance of returning to their job
- Employees whose claims extend beyond 30 days have an average injury claim cost of \$50,000 to Employers

*Partner with Proof Positive to make your worksite safer, more efficient, and more profitable. We provide comprehensive safety programs and worksite services that cut operational expenses and reduce unnecessary payroll costs. Let us focus on what we do best so you can focus on what you do best.*

**We reduce our partner's workers compensation budgets by 30-70%! All clients see a minimum of 30% reduction in costs.**
